Description of School

American University is a dynamic, college-centered research university located in the heart of Washington, D.C., just four miles from the White House. It is a medium-sized institution with an undergraduate population of 7,000 undergraduate students, but students enjoy close relationships with their professors with an average class size of 23 and a student to faculty ratio of 12:1. We encourage students to use our Washington, D.C. backdrop as a living-learning laboratory. 89% of students intern at least once by the time they graduate, with the typical AU student completing two to three work experiences. AU offers over 75 different majors, including our unique interdisciplinary major: CLEG (Communications, Legal Institutions, Economics, and Government), International Studies, Business and Entertainment, Communications and the Sciences.
